

MEDICIS

Making new medical radionuclides available for cancer research
Fournir de nouveaux radionucléides pour la recherche contre le cancer

Which radionuclides do we know? Quels radionucléides connaissons-nous?

What are their applications in medicine ? Quelles sont leur applications en médecine ?

Functional imaging Imagerie fonctionnelle

Positron Emission Tomography (PET)
Tomographie par Emission de Positons (TEP)

Single Photon Emission Computed Tomography (SPECT)
Tomographie par Emission de MonoPhotonique (TEMP)

Comment fonctionne MEDICIS ?

CERN Accelerator complex La chaîne d'accélérateurs du CERN

Target Irradiation Irradiation de la cible

Element Selective Laser Ionisation Ionisation Laser

Isotopes Electromagnetic Mass Separation Séparation en masse

+ target

Packaging Emballage

Quality Control Contrôle qualité

Radiochemical purification Purification radiochimique

Collection of the radionuclide Collection du radionucléide

Shipping to hospitals or research centers Envoy vers les hôpitaux ou centres de recherche

Radiopharmaceutical Synthesis Synthèse du radiopharmaceutique

Radiolabelling Radiomarquage

Pre-Clinical Trial Essais pré-cliniques
