

Results of Written Re-Auction for Intellectual Property “Waste Water Treatment”

The re-auction for intellectual property – the international patent application No PCT/IB2021/052390 “A Method for Water Disinfection Using $\text{Ca}_2\text{F}_2\text{eO}_5$ ”, issued with priority to the Latvian patent application No LVP2020000046, and the Latvian patent No LV15557 “A Method for Water Disinfection Using CaFeO ” (application No LVP2020000046) took place at Riga Technical University at 13:00 of 15 November 2021.

The Intellectual Property has been created within the framework of the project No KC-PI-2017/10 “Waste Water Treatment” (Z-Surface) of the operational programme “Growth and Employment” of the specific support goal 1.2.1 “To Increase the Private Sector Investments P&A”, measure 1.2.1.2 “Support for Improvement of the Technology Transfer System”.

Since not a single participant has applied for the re-auction, the RTU Intellectual Property Auction Commission **decided:**

1. Pursuant to the Article 4.7. of the Auction Regulation to declare **the auction has ended with no results.**
