

## **Results of Written Auction for Intellectual Property “Waste Water Treatment”**

The auction for intellectual property – the international patent application No PCT/IB2021/052390 “A Method for Water Disinfection Using  $\text{Ca}_2\text{F}_2\text{eO}_5$ ”, issued with priority to the Latvian patent application No LVP2020000046, and the Latvian patent application No LVP2020000046 “A Method for Water Disinfection Using  $\text{CaFeO}$ ” took place at Riga Technical University at 13:00 a.m. of 8 August 2021.

The Intellectual Property has been created within the framework of the project No KC-PI-2017/10 “Waste Water Treatment” (Z-Surface) of the operational programme “Growth and Employment” of the specific support goal 1.2.1 “To Increase the Private Sector Investments P&A”, measure 1.2.1.2 “Support for Improvement of the Technology Transfer System”.

Since not a single participant has applied for the auction, the RTU Intellectual Property Auction Commission **decided**:

1. Pursuant to the Article 4.7. of the Auction Regulation to declare **the auction has ended with no results**.
2. Pursuant to the Article 5.5 of the Auction Regulations **to re-auction the intellectual property**.

A re-auction of intellectual property is scheduled for the first week of September.
